

Association Objectives

To maintain/improve water quality, to protect/enhance the fishery, the wildlife habitat, and the recreational value of the lake. Primary focus:

- A. Water quality/aquatic invasive species monitoring (AIS)
- B. On-going collaboration with MN DNR Department of Fishery
- C. On-going collaboration with OTC Department of Land Resources

To manage water level related issues

- A. Communicate Star Lake concerns with OTC & DNR officials regarding inbound and outbound water level issues
 - a. Ditch 25 inflow/potential AIS impact on Star Lake
 - b. Ditch 23 outflow management on Star Lake
 - c. Potential financial impact on Star Lake property owners relating to Ditch 25 & 23
 - d. Continue to support water safety issues

Provide/maintain/replacement of safety buoys

- A. Recruit membership volunteers for placement/removal of safety buoys
- B. Inform SLPOA members on water quality, lake related issues with intent of having more awareness & engaged citizenry

Continued communication via SLPOA newsletters

- A. Inform membership of issues impacting water quality & lake related issues
- B. Continue to enhance the content of the SLPOA website and encourage its use
- C. Continue to include speakers on subjects of interest at SLPOA meetings
